TWIN BROTHERS' YEAST.

Manufactured by the Waterloo Yeast Company.

Factories and Wholesale Depots: Waterloo, New York, Detroit, Mich., Peoria, Illinois, 9 Wabash Ave., Chicago, Ill., Toronto, Ont., 51 Murray St., N. Y., St. Louis, Mo.

Please give this Yeast a fair trial, and when you call on your grocer to buy, see that what he sells you is fresh, and call his attention to the fact that we warrant every package, and if he has any that is stale or old on hand, we will exchange and give him fresh Yeast for it WITHOUT CHARGE, believing that IT HAS NO EQUAL for making Light, Sweet and Wholesome Bread. It is PURELY VEGETABLE, and contains no Drugs or Chemicals.

BEWARE OF COUNTERFEITS! and see that the two heads are on each package. Certain unprincipled parties have tried to deceive the public by using a trade mark similar to our own, but be not deceived, and see that your Yeast is genuine, and the words "TWIN BROTHERS" are on every package. The Twin Brothers' is the only Yeast that has a WORLD WIDE REPUTATION! At the late World's Fair at Vienna it received the GOLD MEDAL and honorable mention from the Committee, at Philadelphia a Medal and Diploma, and at the Michigan State Fair of 1879 a Silver Medal and a Diploma for the best display of Bread over all competitors.

Dr. Harrison has great success also in other diseases, prominent among which are

Salt Rheum and all Skin Diseases.

Dr. Harrison makes a medicine which will (if used immediately after burning of the flesh or skin occurs) prevent blistering. PREFACE.

IN laying before the citizens of Washtenaw the tangible results of our labor, we are doubly gratified: firstly, from the fact that it has been our constant and persistant endeavor to produce a complete and satisfactory work; and secondly, that from our own knowledge of what we engaged to do, we are aware that our efforts have been in the main successful. The issue of a directory is a work indicating a city's history and prosperity. It is, for the time issued, a valuable compendium from the fact that it brings one person into closer communion, as it were, with his fellow citizens. As a means of information its usefulness cannot be questioned. It is, from one issue to another, a guide to a city or county's interests, and in submitting our work to the public we can only say that as a book it is a reflex of the cities and county—their advantages, as well as the liberality and enterprise of the business men.

Of the growth of the two principal cities in Washtenaw, we glean the following facts: In 1878 the number of names given was 2,712, giving population at 8,136; in 1883 there are 3,485, which multiplied by 3 gives 10,455, exclusive of the 1440 students, an actual increase of 2,319 in five years. In 1878 the number of names given for Ypsilanti City was 1,601, giving population at 4,803; in 1883 there are 2,125, which multiplied by 3 gives 6,375, an actual increase of 1,572 in five years. This estimate of inhabitants is not a fanciful one, but is based upon what is believed to be a close canvass of the population.

Our many thanks are extended to the business and professional men for their liberal encouragement in the way of patronage, material aid and favors granted during the canvass, and to the citizens in general for the prompt and intelligent manner in which information was given us. We remain your obedient servants,

ANN ARBOR CITY.

1883.

This, the Athens of the West, is one of the finest, most healthy inland cities in the State, and is the seat of Justice of Washtenaw County. The plat of the Village of Ann Arbor was recorded May 25th, 1824. It was incorporated as a city April 4th, 1851, and has a population of 10,455, exclusive of students (see preface).

Its first settlers were John Allen, Esq., of Virginia, and Elisha W. Rumsey, Esq., of the State of New York, who, with their families, located here in February, 1824. They first built an arbor, composed of oak poles, covered with boughs, and the name of each of their wives being "Ann," the new settlement was at first called "Ann's Arbor," from whence the city derived its present name. The name "Washtenaw" is derived from the Indian tongue and signifies "grand," or "beautiful."

The business portion of Ann Arbor is mostly built of brick; several Churches are built of stone, and the residences of brick and wood, built upon lots of liberal size. It has been the practice of the business men, mechanic, and clerk, to purchase a lot and erect a dwelling according to their means. Thus this city to an unusually large extent is peopled by house-owners who "sit in the shadow of their own vines and fig trees." Situated upon the slopes of several hills, the drainage is perfect, and the good health of the citizens assured.

Ann Arbor, via railroad, is 38 miles west of Detroit, 37 east of Jackson, 74 southeast of Lansing, 40 southwest of Pontiac, 46 northwest of Toledo and 246 east of Chicago.

THE CHURCHES.

In churches, number, and size, the city compares favorably with those of larger population. Among the largest are the Methodist Episcopal, Presbyterian, Episcopalian, Congregational, Catholic, Lutheran, Unitarian and German Methodist.

CHANGES.

We note a few changes since the issue of the last directory by F. H. Pray and S. D. Allen (1878). The handsome court house, then in course of erection, was completed in 1879 at a cost of nearly $100,000, and is occupied by the county offices, circuit court, city council, and the meetings of the different county societies are also held therein. Of other new buildings erected, we mention Hon. Rice A. Beal's fine postoffice building, John Keck's new furniture block, the Hamilton block, the new fire engine house, a Unitarian church, a number of fine dwellings on the best streets of the city, and several new buildings and improvements on the University grounds.

The T. & A. A. R. R., completed in 1878 to Ann Arbor, has been extended north to South Lyon, and the name changed to the T., A. A. & G. T. R. R.

The W., St. L. & W. R. R. has extended its line to Detroit, thereby crossing the southeast corner of Washtenaw county.

The D., H. & I. R. R. has passed into the hands of the L. S. & M. S. R. R., and is now known as the Ypsilanti branch of that r

THE SCHOOLS.

The city is favored with the most efficient and prosperous union school in the state. Students in large numbers from Michigan and other states attend the high school while preparing for admission to the University. The high school building on the corner of Huron and State streets, is a handsome brick structure costing $60,000. In addition to this there are five commodious ward schools for the younger portion of resident pupils.

LIBRARIES.

The only library aside from those at the University and in the churches is the Ladies' Library Association, located in the Hamilton Block, and contains 2800 volumes.

THE PRESS.

There are four English and two German weekly newspapers published, *viz.*, *Ann Arbor Argus*, *Ann Arbor Courier*, *Ann Arbor Democrat*, *Ann Arbor Register*, *The Washtenaw Post* (German), and *The Washtenaw Journal* (German), a medical journal, the *Physician and Surgeon*, and a number of publications by the University and High School students.

THE UNIVERSITY.

Ann Arbor is especially known as the seat of the University of Michigan, which was opened in 1842, with its departments of Literature, Science and the Arts, the Medical and Law departments, its schools of Mining and Civil Engineering, and its extensive laboratory of Chemistry and Pharmacy. The several departments contained 1,427 students in 1879-80, 1,502 in 1881-82, 1,440 in 1882-83. In its complete and thourough courses of study, and in the number of students who annually come here for thorough culture from every part of the world, and in the number and size of its buildings and extensive and beautiful grounds, this University ranks among the first in the United States. The Hall for public exercises is 80x130 feet, and has a seating capacity for 3,000 persons. The Libraries of the University accessible to the students contain in the aggregate 42,000 volumes, and 8,166 unbound pamphlets. The Museum of Science and Art is of great value, and is now in the new building erected for its use in 1881-2; the Geological, Zoological and Botanical Cabinets are estimated to contain 255,000 specimens. The Museums of Anatomy and Medica are also extensive. The Astronomical Observatory, Detroit, is thoroughly [illegible] astronomical discoveries of

ANN ARBOR, MICHIGAN.

CAPITAL PAID IN,	$ 50,000.00
SURPLUS,	25,000.00

Transacts a general Banking Business; buys and sells Exchange on New York, Detroit and Chicago; sells Sight Drafts on all the principal cities of Europe; also sells passage tickets to Liverpool, London and Glasgow, via the Anchor Line of Steamships, whose rates are lower than most other first-class lines.

This Bank, already having a large business, invites merchants and others to open accounts with them, with the assurance of the most liberal dealing consistent with safe banking.

In the Savings Department interest is paid at the rate of *three per cent.* per annum, payable semi-annually, on the first days of January and July, on all sums that have remained on deposit three months previous to those days, thus affording the people of this city and county a perfectly safe depository for their funds, together with a fair return in interest for the same.

WASHTENAW JOURNAL

GERMAN WEEKLY.

The Journal represents the views of the liberal-minded German element of Washtenaw and adjacent counties. It has a large circulation, for it aims to meet the wants of business men, farmers and laborers; it gives its readers from thirty-five to forty columns of well-selected reading matter, kept in the bounds of morality, religion, freedom, science, literature and good-natured humor. The Journal is the only German paper in this county in which advertising will pay.

TO DIRECTORY OWNERS.

We are pleased to call your attention to our **New Directory Guard,** which is the most complete arrangement for Directories, or *Books of any kind*, desired to be KEPT CHAINED TO ANY PARTICULAR PLACE. The Guard is made of best Spring Brass plate wire, connected by a rivet at one end, and by a chain at the other, which enables the Guard to be changed from one book to another when desired, and will, therefore, last for years.

The plate (2) is designed to pass between the CENTRE LEAVES OF THE BOOK, and the wire outside, thereby holding the book by its strongest part, and will PREVENT LOANING, THIEVING, &c.

When ordering always give full length of page in your book.

Price of Directory Guard, per dozen.....$2.50
Sample, post paid, (complete with chain)..... 50
" " " (without chain)..... 30

The chain used is No. 14 Brass Jack Chain, which can be obtained at any hardware store.

WASHTENAW COUNTY DIRECTORY.

YPSILANTI CITY.

1883.

THIS handsome city of 6,000 inhabitants is pleasantly situated on both sides of the Huron River, about two miles from the east line of Washtenaw County. It is a station on the Michigan Central Railroad, 30 miles west of Detroit, 254 from Chicago, and 9 miles east of Ann Arbor, the county seat.

The Ypsilanti Branch of the L. S. & M. S. R. R. here diverges from the Michigan Central, connecting at Hillsdale for points East, West and South.

In 1811 the place was a fur trading-post with the Indians, established by a French firm, who obtained a grant of 2,500 acres from the General Government, and this tract is yet known on our maps and numbered as "French Claims."

In 1823 a road was cut through from Detroit, and the settlement

Established 1846. **48 South Main Street, Ann Arbor.**

then made was called Woodruff's Grove. In 1825 the village was platted, and named Ypsilanti in honor of the famous Greek revolutionary leader.

It was chartered as a village in 1832, and as a city in 1858, thereby consolidating the old "East" and "West" towns.

The Huron River affords excellent water power, and is utilized by several manufacturing interests, prominent among which are the Peninsular and the Ypsilanti Paper Mills, which special industry is surpassed by but one or two in the United States.

The schools are, with justice, the pride of the citizens. The State Normal, which crowns the western heights of the city, was established by an act of the Legislature in 1849. The grounds were donated and a building erected at a cost of $13,500. One of its first Presidents was Prof. Allen A. Griffith, long to be remembered for his rare attainments and wonderful elocutionary powers.

The Ypsilanti Union School was the first *graded school* in the State, and largely served as a model npon which this class of schools were fashioned. The old building, superior to many when built, was burned, and a new one erected in 1878 costing $3,500. Connected with the schools are two public libraries, containing 35,000 volumes. Eight Churches represent the following denominations: Baptist, Methodist, Presbyterian, Episcopal, Congregational, Catholic and German Lutheran.

The city contains a National Bank, capital $75,000, and also a private bank; three newspapers, the Commercial (Rep.), the Sentinel (Dem.) and the Ypsilantian (Indipendent), and is lighted with gas.

The latest enterprise is the organization of a stock company to utilize the mineral waters recently discovered here, which has already performed some wonderful cures, as rheumatism, paralysis, cancer and dyspepsia. Telegraph, Western Union; express, American; mail daily, Clinton Spencer, Postmaster.

All the Popular Patent and Proprietary Medicines of the day can be found at the Drug Store of **H. J. BROWN & CO.**

"Poets are numerous now-a-days," and so
It's not surprising we should cut a caper
In noble verse; it don't cost much you know,
For pens and ink are cheap and so is paper,
And even if we do hunt Webster thro'
What matters it if we can make it do?

That's the idea exactly, so here goes,
Poetry or not, we still can write in rhyme;
So, for the nonce, we'll bid good bye to prose,
And "see it later,"—at another time.
Now we're a poet? hence our mind must be
From every common mundane matter free.

Sweet muse etc., look with kindly eye,
Upon our efforts in the versic line,
And aid us with thy presence, while we try
Our untaught hands on things of new design;
Unloose our tongue, give us your biggest words!
And let us try our wings like new-fledged birds.

Ypsilanti has thriven, and is now a city,
Numbering about *six* thousand population—
(There should be *ten*, but is not more's the pity—
A census always is an aggravation,
Which, instead of giving cities a fair showing,
Seems made on purpose to retard their growing!)

Its greatest feature is its water power,
Which is magnificent and very fine.
And one that is as good and rich a dower
As nature could bequeath; it proves a mine
Of untold wealth, a bank that cannot "bust,"
And one effectual for laying dust!

Its manufacturing is extensive, though
There certainly is lots of room for more,

F. & A. SORG sell **Wall Paper and Window Shades.**
26 and 28 East Washington Street.

Go to JOE T. JACOBS' for CLOTHING. HE ALWAYS MAKES LOWEST PRICES.
27 and 29 South Main Street. Ann Arbor.

For here the "water makes the wheel to go"
  And land is cheap along the river, sure!
[Dirt cheap, we should say, but we're not a wit,
  And puns are things that some how do not fit.]

Its merchants are most enterprising men,
  And don't believe in sticking in the mud;
Their maxim's go ahead, except when
  Being stationery does them the most good!
Taking them all in all they know their "biz,"
  And never call things *pop* unless they fiz-z.

The city government needs no correction,
  It does its work O K, *comme it fault*,
Altho' [we hope they will not take exception
  To what we say] they might improve, you know.
There's several items we'll presume to mention,
  Which to our thinking should receive attention.

For instance, there are streets within the city
  Unnamed, or if they are the name's unknown,
Especially in the *suburbs* food for pity
  In this particular. We all must own
There's much occasion for a man to swear,
  When hunting for a street which isn' there!

The way to obviate this little matter
  Is very easy, viz; to post the name
Upon the corner of each street, so that a
  Man can read it right away, then he's to blame
If after reading all the streets in town,
  He finds that *Green street's other name is Brown!*

Again the numbers on the houses are
  A little mixed, and no one can be sure
But what a "sixty" is a "forty-four;"
  In fact it may be less, or may be more;

Bay City Lumber Yard, YPSILANTI. Flooring, Ceiling & Siding. We buy where we can get the Best Stock the Cheapest.

H. J. BROWN & CO. carry a full stock of the **Purest Wines, Brandies and other Liquors** or Medicinal and Sacramental Purposes.

It isn't nice to hunt for "nine" you see,
  And have 'em say "why, this is fifty-three!"

Of course not, consequently we suggest
  A revision of the system, all throughout it,
The cost is trifling, and its the best
  To have a thing correct, when one's about it,
And then, how nice, to feel securely sure,
  That number forty-eight ain't twenty-four.

There also are some sidewalks here and there
  That somehow llke to have you "take a seat;"
The trouble is, it looks so awful queer,
  That no one cares to do it in the street;
Its not "in style," and people have a passion
  For doing nothing but what's "in the fashion."

And so we think (we're very fond of talking)
  Another kind of walk would better please,
One that confines its usefulness for *walking*,
  And not for *sitting down*, as some of these!
Still, we can truly say there's very few
  Bad sidewalks in the city, but *one* or *two*.

Our motive in thus making merry mention
  Of these few items will be understood,
Our spirit is not one of reprehension,
  But rather that we wish Ypsilanti good;
Prosperity and progress is what we
  In her fair princincts ever wish to see.

Well, then, the outlook for the future is
  A good one, and as the proverbs say,
"The longest lane must have its turning," "viz"
  Is having its long wished for turn to-day;
Its like a mule, its kick is well directed,
  And comes in parts where it is least expected.

HENRY KRAUSE, the Boot and Shoe Manufacturer, retails his goods at wholesale prices.
☞ Goods to Order our Specialty. 48 South Main St., Ann Arbor.

Then let us hope that it will prove a kicker
"From morn 'till noon, from noon 'till dewy eve,"
For, strange anomaly! we rise the quicker
The more it keeps on kicking—life's a sieve,
And all it wants is lots of kicking to it
To make us drop most comfortably thro' it!

Just so. And now our book being ended,
There's nothing left to do but bid good bye,
With thanks to those who have our work befriended,
We take our leave with a regretful sigh,
And in the words of foreign lore—Au Revoir,
For we hope *again* to meet your eye.

THE NORMAL CONSERVATORY OF MUSIC.---Third Year.

Director, F. H. PEASE, Professor of Music in the Michigan State Normal School.

TEACHERS.—In order to make the work of the Conservatory as successful as possible, the best teachers, nearly all of whom have studied abroad, have been engaged; and the director himself has visited the celebrated schools and teachers of Europe, becoming acquainted with the music and methods of the Old World.

REGULATIONS.—Pupils are free to choose the teacher from whom they wish to take lessons; but they must first give their names, and pay the tuition to the director, who will assign them hours for lessons and practice.

CONSERVATORY ADVANTAGES.—Members of the Normal Conservatory will be admitted to all concerts and recitals. Pupils will have opportunity to play at recitals during the entire course. The director will have supervision of all pupils, and may be consulted by pupils, parents and guardians, as to the best course to take, and as to progress and improvement made.

CALENDAR FOR 1882-3.—The Fall and Spring Quarters begin with the regular terms of the State Normal School, thus accommodating those who wish to attend both schools.

ANN ARBOR NURSERY

AND

FRUIT FARM.

JACOB GANZHORN, Proprietor.

My grounds are located at the head of Spring Street, about one mile northwest of the Court House.

The high elevation and strong clay soil produces a healthy and hardy growth to trees and plants, and consequently will after removal do well in their new home. Trees and plants possessing strong vital force should be of first consideration to planters.

The great importance to grow varieties true to name I fully realize. I am growing the same fruits for the market of which I offer trees and plants, and hence am in the same position as my fellow-fruit men regarding this matter. Besides, I, in this way, acquire a practical knowledge as to the value of varieties, and therefore know what varieties are the most profitable.

THE YELLOWS. I grow my peach trees from pits of home production, where no yellows exist, and my patrons, therefore, run no risk in getting this dreadful disease started in their orchards. A word to the wise is sufficient.

I keep constantly on hand the finest varieties of **Apples, Pears, Cherries, Peaches, Plums, Quinces, Grapes, Raspberries, Blackberries, Strawberries, Currants, Gooseberries, Etc.**

Grapes grown in Large Quantities and Great Variety.

All **Fruit Growers** are invited to visit my Nursery, where I shall be pleased to show them my stock and methods of growing.

DEXTER VILLAGE.

Dexter, a village of 1300 population, named in honor of S. C. W. Dexter, of Boston, Mass., who located a settlement here about 1823. It is situated on the Huron River, at the mouth of Mill Creek, in northwest corner of Scio Township, and is a station on the M. C. R. R., 9 miles west of Ann Arbor, and 48 west of Detroit. It is in the midst of one of the best farming sections in Michigan; is well laid out, and presents a neat and attractive appearance. Among its prominent features are its five churches, the Baptist, Methodist, Episcopal, Congregational and Roman Catholic, the latter being a handsome stone structure, built at a cost of $40,000.

The large, graded Public School affords excellent educational facilities, and the place has a public hall with a seating capacity of 500.

The Leader is now the only paper published here, the proprietors of the *Sun* having purchased and consolidated the two, using the name of the older paper. *Pith and Point*, a monthly magazine, is also published. Farm products are the principal shipments. Stage to Howell, via Pinckney, daily; fare $1.00 to the latter, and $2.00 to the former. Express, American; telegraph, Western Union; mail daily, James T. Honey, postmaster.

MANCHESTER VILLAGE.

Manchester. A settlement was begun here in 1832. and the place was incorporated as a village in 1867. In 1880 the census gave the population as 1200; it is now said to be over 1500; is the third place in size and business importance in Washtenaw, and is growing rapidly. It is beautifully situated in the valley of the River Raisin, in the northern part of Manchester Township, at the junction of the Ypsilanti and Jackson branches of the L. S. & M. S. R. R., and 22 miles southwest of Ann Arbor; 21 southeast of Jackson; 51 northwest of Toledo, and 54 from Detroit.

It has several manufacturing enterprises, a book publishing house, a bank with a capital of $50,000, a large and handsome new Union School building, with 350 pupils; six churches, of as many denominations; two hotels; a weekly newspaper, *The Enterprise*, and a capacious public hall. The buildings are chiefly brick, and the village boasts some of the handsomest blocks and residences in the State. The products of a remarkably rich agricultural region find a market here, and the two lines of railroad offer excellent transportation facilities. It is connected with the State Telephone Exchange; express, American and United States; telegraph, Western Union and American Union; Chauncey Walbridge, postmaster.

MILAN TOWN.

Milan. This enterprising town was settled in 1831; is located at the crossing of the T. A. A. & G. T. Ry, and the D. & L. Division of the W. St. L. & P. R. R., 15 milss south of Ann Arbor, 22 northwest of Monroe, and 40 southwest of Detroit. The dividing line of Washtenaw and Monroe Counties passes through the village, the larger portion, and the business, being mostly in York Township, Washtenaw County. It claims a population of 800. Among the manufacturing enterprises are a flouring mill, three steam saw mills, two stave factories, cider mill, planing mill and foundry, an Alden evaporating works, one jelly and sorghum factory, one cooper shop, and the extensive brick and tile works of Hanson & Wilcox, with machinery and buildings costing $35,000. Their fire and pressed red brick are the largest and best in the State, and have won for them a just and enviable reputation.

The large stave and heading works of Wm. Hayden & Son, and the Harwood Timber and Lumber Mills of Thos. Wilson & Son deserve more than mere mention.

Among the village improvements in 1882 are ten brick stores, two hotels, and a number of dwelling houses, with none to rent, thus

IMPORTANT TO EVERY AMERICAN CITIZEN.

Our Genealogy

And Perpetual Family Record Books.

[*Copyright secured 1878.*]

THIS is the first practical system ever offered to the American people by which they are enabled to keep, in a concise and connected form, complete Family Records from generation to generation. By this system we may trace from one of blood relation to another, faternal or maternal, with perfect accuracy. It will enable our grand children, and theirs, to know the **dates** and **important facts** (of information in Family Records) connected with our lives, as well as we know them ourselves. **"Missing Links"** are the **"Bones of Contention"** in the courts of the present day in suits for **"Property Willed to Heirs."** This may be prevented in **future** by timely attention to **Our Genealogy** while the facts are fresh in our memory. Bear in mind that

Fathers, mothers, sons and daughters,
All remembered in the years to come,
Though perhaps your memory falters,
True records trace them every one.

[LETTER OF APPROVAL.[

FULTON, ILLINOIS, August 24, 1878.

A. C. WENDELL—

My Dear Friend—"Our Genealogy" came last evening. I am much pleased with the plan of the book in detail, and as a whole it does you great credit, and will be of service and a record of great interest to every family. The Griffiths in America—descendents of a Welsh princes—would now be enjoying the millions that fell to the British crown, if such a record had been kept to furnish the "Missing Links" of evidence.

Ever your friend,
ALLEN A. GRIFFITH.
President Northern Illinois College.

ANN ARBOR TOWNSHIP.

TOWN 2 SOUTH, RANGE 6 EAST.

Ann Arbor Township is located a little to the Northeast of the center of the county, and contains the city of Ann Arbor. This is a famous agricultural district, and is fast becoming the finest peach region in the state. The high elevation and strong clay soil produces a healthy and hardy growth to trees, and the "yellows" do not exist. The old farmers are mostly a wealthy, independent class, who settled here in early times and after years of toil and industry, many are able to leave their farms in the hands of tenants, or sell them and live in town. Ann Arbor City furnishes the only postoffice in the township, Geddesburg and Newburg having been discontinued.

LYNDON TOWNSHIP.

TOWN 1 SOUTH, RANGE 3 EAST.

This is the northwest corner township of the county. It is sparsely populated, owing to the fact that nearly one third of the land is covered with lakes and swamps, the largest of which are Collins, South and Island lakes.

The timber is mostly hickory, yellow oak and tamarack.

The tillable land is very fertile, and the staple product is wheat. Being bordered on two sides with a range of hills, it affords abundant pasturage for stock. Sheep are mostly raised.

There is not a hamlet or postoffice within its limits and the people generally trade and receive their mail at Unadilla, Waterloo and Chelsea.

TOWNSHIP OFFICERS 1883.

Supervisor—Fred A. Howlett, p o Waterloo.
Clerk—Frank Greening, p o Chelsea.

SCIO TOWNSHIP.

TOWN 2 SOUTH, RANGE 5 EAST.

Scio derives its name from an historical Grecian Island. In this town was established the first Evangelical Lutheran German Church in Michigan (see Church Directory Ann Arbor City). The land is hilly along the Huron River, but otherwise gently rolling, with alternate openings and timber in the central and southern parts. The soil is a rich loam, with some gravel and sand, and is drained by the Huron River, Honey and Mill Creeks.

The M. C. R. R. crosses the northern part and within the limits of Scio crosses the Huron River at least six times.

Delhi, a hamlet and postoffice on the M. C. R. R., 4½ miles west of Ann Arbor (sec 11), is a place of about the same industries as Scio, and has the same railroad accommodations. Mail daily. Population 200. F. W. Goodale, Postmaster.

Goodale F. W. & Co., flour mills.

Scio. A station and postoffice on the M. C. R. R., six miles west of Ann Arbor (sec 10). It is a place of small manufacturing interests, and trains stop each way twice a day. Population about 200. Mail daily. Geo. A. Peters, Postmaster.

SUPERIOR TOWNSHIP.

TOWN 2 SOUTH, RANGE 7 EAST.

This town borders the east line of the county and is the first north of Ypsilanti. It was one of the earliest settled in Washtenaw. The land is mostly level, with alternate timber and openings, is drained by four creeks, and the Huron River crosses the south-west corner, on which are located the extensive mills of the Ypsilanti Paper Co. Other townships may be fine for agriculture and stock raising, but this is the *banner township* and derives its name from the superior quality of soil and lay of its land. There is no postoffice within its limits.

Dixboro. Population 30. On Fleming Creek and on the old Plymouth wagon road, formerly contained a postoffice and was a business village in early days. It is five miles from Ann Arbor and six from Ypsilanti.

Bay City Lumber Yard, YPSILANTI. ☞ All kinds of Rough and Dressed Lumber, Lath and Shingles.
Call and Get Prices.

H. J. BROWN & CO. add to their stock ☞ALL THE NEW REMEDIES as fast as they appear in the market.

YORK TOWNSHIP.

TOWN 4 SOUTH, RANGE 6 EAST.

York is in the southern tier and one west of the south-east corner town. Soil is a mud and clay loam, very rich and productive, with plenty of timber in the south. It is drained by the Saline River (which affords water power), Stoney Creek and tributaries. The T A A & G T Ry crosses the town nearly directly north and south, and the Detroit branch of the W, St L & P Ry crosses the south-east corner, giving excellent transportation facilities.

Milan (sec 35). Population 800. A thriving village, partly in this township and partly in the town of Milan, Monroe County (see Milan, p 314).

Nora (sec 22). Population 10. Is a newly established postoffice and station on the T, A A & G T Ry, 12 miles south of Ann Arbor. Daily mail stage to York and Stoney Creek. R. Salsbury, postmaster.

Urania (sec 3). Population 5. A postoffice recently established and a station on the T, A A & G T Ry, 9 miles south of Ann Arbor and 9 from Ypsilanti. This is surrounded by a fine farming country. It needs and is a good location for a general store. Mail daily. Peter Cook, postmaster and railroad agent.

York Village (sec 28). More generally known as Moreville, was settled in 1830 and has a population of 150. Is on the Saline River about 6 miles from the village of Saline and 2½ south-west of Nora, with which it has daily mail stage (fare 15 cents), 14 miles to Ann Arbor and 13 to Ypsilanti. E. B. YPSILANTI TOWNSHIP.

TOWN 3 SOUTH, RANGE 7 EAST.

This township borders the east line of Washtenaw and is the first north of Augusta. It contains a part of the village of Rawsonville, and the city of Ypsilanti (see Ypsilanti City, page 180). It is nearly wholly devoted to agriculture and produces wheat, wool, fruit, etc. for its own city markets, and a large quantity for shipping. It has abundant railroad facilities via the M C and L S & M S Railroads. The Huron River flows diagonally through the town and affords excellent water power.

Rawsonville (Wayne Co.). A part of which is also on section 24 in this township, 4½ miles south-east of Ypsilanti and 14 miles from Ann Arbor, on the banks of the Huron River. It has daily stage communication with Belleville and Ypsilanti, which makes connections with the morning trains at both places. Population 150. Mail daily. E. Barlow, postmaster.
